SBT SOLUTION

July 2023 - till now

I started working full-time in my second year of university as part of a five-member team. I conduct user research, create wireframes and prototypes, design intuitive interfaces, and collaborate with developers to ensure seamless implementation. I refine designs based on feedback and data insights while staying updated on industry trends.

Freelance Designer

September 2022- July 2023

Collaborating with clients to create custom designs that meet their needs and expectations. I am responsible for managing my own time and workload, and am skilled in communication and project management to ensure that projects are completed on time and to the client's satisfaction.
