EXPERIENCE

Middle UI/UX Designer

SBT SOLUTION

October 2023 - till now

Responsible for conducting user research, creating wireframes, prototypes, and designing intuitive, visually engaging interfaces. Collaborating with developers and product teams to ensure seamless implementation and user-centered design. Iterating on designs based on feedback and data insights while maintaining design consistency and optimising usability. Staying up to date with industry trends to enhance user experiences and drive innovation.

Junior UI/UX Design

SBT SOLUTION

July 2023 - October 2023

During my UI/UX Design internship program, I actively contributed to user-centric design initiatives, including user research, wireframing, prototyping, and interface design. Collaborating closely with cross-functional teams, I applied industry best practices to enhance the overall user experience, maintained brand consistency, and engaged in usability testing to refine design solutions. This experience equipped me with valuable skills in design thinking, problem-solving, and effective communication within a professional design environment.

Freelance Designer

September 2022- July 2023

Collaborating with clients to create custom designs that meet their needs and expectations. I am responsible for managing my own time and workload, and am skilled in communication and project management to ensure that projects are completed on time and to the client's satisfaction.
