EXPERIENCE

Product Designer

SBT SOLUTION

July 2023 - till now

Led end-to-end product design by conducting user research, creating wireframes and prototypes, and crafting intuitive, visually engaging interfaces. Collaborated closely with developers and product teams to ensure seamless implementation, while contributing to and evolving design systems for consistency and scalability. Continuously iterated on solutions using feedback and data to enhance usability and deliver user-centered experiences.

UI/UX Designer

FREELANCE

September 2022- July 2023

Collaborated directly with clients to design custom digital products tailored to their needs, from concept to delivery. Managed communication, timelines, and expectations independently, ensuring each project met both creative standards and client goals while maintaining a strong focus on usability and visual consistency.

User Experience Specialist

SITEL - JUST EAT TAKEAWAY UK

July 2021- September 2022

Supported and improved the end-to-end experience for customers, drivers, and restaurant partners by resolving user issues across multiple channels, collecting and analyzing feedback, and identifying recurring pain points. Regularly documented insights and patterns to help streamline support workflows and enhance the overall usability of the platform from a frontline perspective.
